

# The Apartheid Wall

The world knows full well that Iron Curtains and Berlin Walls do not make people more secure and are antithetical to global peace and security. But . . . if the Israelis want to build a wall, one that will be three times as long and twice as high as the Berlin Wall, then let them build it on their own land, not more confiscated Palestinian land.

“You can’t expect 100 percent security unless you give the other people 100 percent of freedom. Israel’s future security depends more on a just peace for Palestinians than on borders marked by barbed wire and fortifications.”

*Shimon Peres  
former Prime Minister of Israel*
